

# National I-73/74 Corridor Association

[www.I73.com](http://www.I73.com)

March 15, 2009

Congressman Henry Brown  
103 Cannon House Office Building  
Washington, DC 20515

Dear Congressman Brown

We are writing to request your support and assistance in securing federal funds to fund a national study of the Interstate 73/74 Corridor and its impact on employment, transportation, economic development and the social welfare of each of the six (6) states where the corridor is planned.

We request \$200,000.00 for this study, to be completed by a research institution within the six-state region. Similar studies have been completed for other corridor projects and we believe this study will help Congress evaluate future investment in this high-priority corridor.

Your past support of I-73 has been instrumental in gaining federal investment, and your leadership as co-chair of the I-73/74 Congressional Caucus is greatly appreciated. We respectfully request your assistance in securing this important investment to appropriately evaluate the national benefits to completing the I-73/74 corridor.

Thank you for your considerations. With warmest regards, we remain,

Sincerely,

Handwritten signature of Alan Clemmons.

Rep. Alan Clemmons  
Chairman
