Dear Congresswoman Corrine Brown,

On behalf of the Families in Transition children from Seminole County, thank you very much for an incredible day, meeting you at the Capital!

Austin and Ariel Metzger, Destiny and Kimberly Raynor along with their father's and I had a wonderful meeting with you. We were very appreciative of your time, listening to the concerns of our homeless children and your call to action to make a difference for our homeless children of Central Florida. Right after you viewed the 60 Minute Segment you called me to see how you can make a difference. From that phone call you began positive movement in our system that has now housed and employed three families (8 children). From our conversation and the plans that you have, this is only the beginning!

It is because of Congresswomen like you that our nation is a better place for the children that are at highest risk. I look forward to continuing to work with you.

Best regards,

Beth Davalos
